

OmniPack

Increase your palletizer ROI by 30% with a cutting-edge software

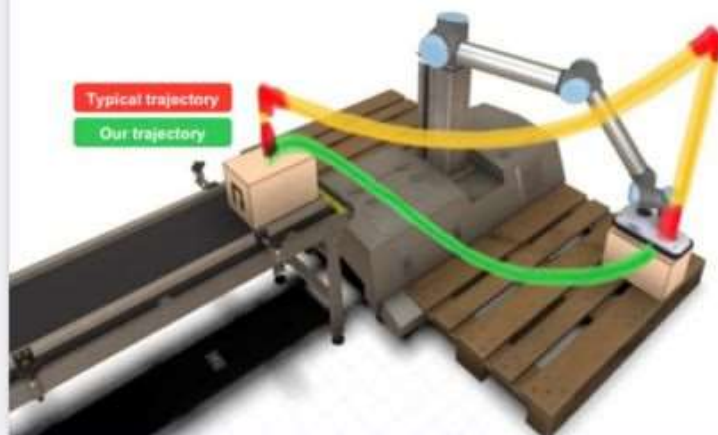

As simple as possible

Use your robot the same way you are using your smartphone.

No code. No hustle. Zero knowledge required.

Just tell the robot what to do and enjoy.

As efficient as possible

State-of-the-art trajectory planning algorithm makes the robot work faster and incredibly smoother.

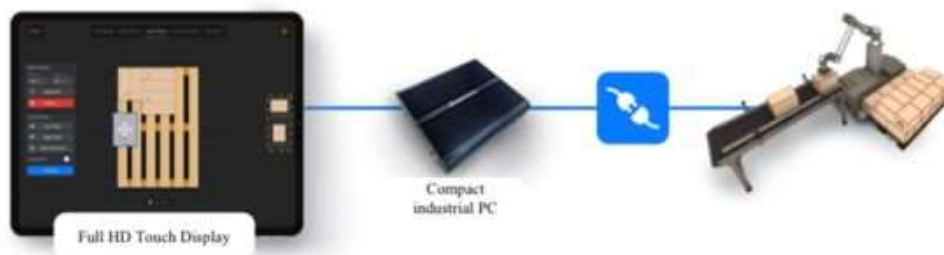

Smart and reliable

Comprehensive error handling system automatically analyze and try to recover from any issue to secure non-stop production

1 2

Plug-n-play

If we were showing you the live demo, we would have finished it before you got here

1 2

What it means for your business

50% Cost reduction on maintenance and reprogramming

Easy

System set-up takes less than 10 minutes

You can reconfigure the system in under 2 minutes

Efficient

20% higher speed

30% palletizer life-time increase

Reliable

Comprehensive error handling

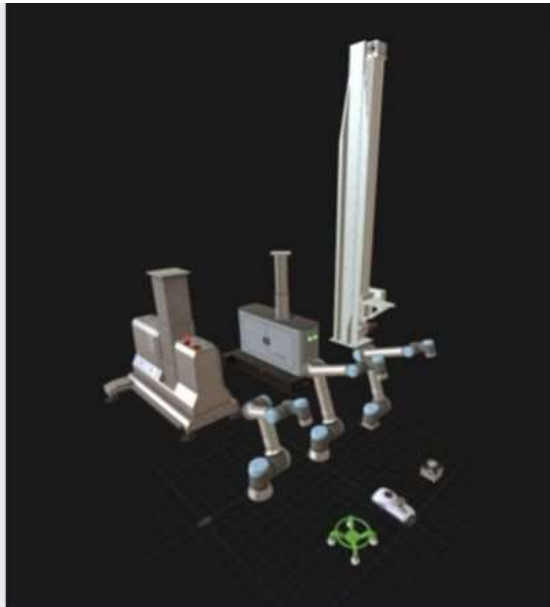

Self-recovering
